

12 January, 2006

Unto the populace of Atlantia, greetings from Alisoun MacCoul of Elphane, Golden Dolphin Herald!

The Laurel Office has notified us of the results of its considerations at the meetings in October, 2005. These results were conveyed in a letter received in Atlantia on 10 January, 2006.

ACCEPTANCES:

The following items were REGISTERED by the Laurel Office:

Ainbthen ingen Séigíne. Name (see RETURNS for device). The name was submitted to Laurel as Ainbthen inghean Sheighin. Because the submitter had requested authenticity for Irish and the given name used was the name of an early Irish virgin saint, the Laurel staff felt it necessary to modify the name to make the patronymic particle and the patronym itself appropriate for Middle Irish to meet the request for authenticity.

Allastair Sterling. Name.

Amie Sparrow. Change of device. Vert, three sparrows and a chief engrailed argent. As the submitter requested, her old device of “Per pale Or and vert, an eagle counterchanged within a bordure ermine.” was retained as a badge.

Aonghus mac Donnchaidh. Name.

Bozhana Alexandrova. Device. Or, a squirrel sejant erect sable, sustaining a drawn wooden bow and arrow proper, the arrow fletched gules, within a bordure gules semy of acorns Or.

Dagfinnr Brúnsson. Name.

Dante di Lucio della Luna. Name and device. Quarterly argent and Or, on a cross engrailed azure a crescent Or.

Guillaume Tomas le Lou. Change of name from holding name of William of Caer Mear.

Hatano no Daigoro Masamori. Name.

Luke of Bright Hills. Name and device. Or, on a pale between two crescents azure, a rocket Or.

Nina of Bright Hills. Name and device. Or, a pale azure and overall an ypotryll rampant gules.

Njáll Porvaldsson. Device. Argent, a cross azure between a Maltese cross gules and a tower sable within a bordure azure.

Raimondo Ricchi detto il Lemosino. Change of name from Raimon Riquiers de Lymoges and change of device. Per chevron argent and vert, in base a cross patonce Or. Since the submitter requested authenticity for Italian of the thirteenth to fifteenth century, the Laurel staff modified the locative byname to *Lemosino* from *Limogiano* because they felt the latter was not documented adequately as period practice for Italian and because they were able to find a native Italian form for Limoges in Dante's *Purgatorio: Lemosi*'. As he requested, his former name of Raimon Riquiers de Lymoges was retained as an alternate persona name. His previous device ("Chevronelly argent and vert, in pale three crosses patoncé Or.") was retained as a badge.

Raimondo Ricchi detto il Lemosino. Badge. (Fieldless) On an anvil per chevron argent and vert, in base a cross patonce argent.

Renate de la Beche. Name (see RETURNS for device).

Rhiannon ferch Cuhelyn. Name and device. Argent, a vol and a sinister gore sable.

Roberto Ramirez. Name.

Rodrigo Garcia de Palacios. Name and device. Argent, a bull passant sable and a chief embattled vert.

Tor Olafsson. Name.

Tymoteusz Konikokrad. Badge. Or, an orca bendwise sable marked argent maintaining a meat cleaver sable.

Violante Catalina de la Mar. Name. The name was submitted to Laurel as Violetta Catalina de la Mar. Since the submitter had requested authenticity for the fifteenth century and the name apart from the given name was documented from fifteenth-century Spain, the Laurel staff modified the given name to a diminutive of *Viola* that was documented from fifteenth-century Spain: *Violante*. In making this change, however, the Laurel staff specifically noted that the submitted name Violetta Catalina de la Mar was registerable but was not as authentic because it mixed Spanish with another language. (*Violetta* is documented both as Italian and as English.)

Wyon ap Iago. Name.

RETURNS:

The following items were RETURNED by the Laurel Office:

Ainbthen ingen Séigíne. Device. Argent, in pale three crosses of Saint Bridget vert. The Laurel staff felt that the crosses of Saint Brigit were insufficiently identifiable as the submitter represented them so returned the device to be redrawn.

Gwilim Kynith. Name. Unfortunately, this name was returned for conflict with the previously registered name of Gwillim Kynith. That name was registered through the East Kingdom in November, 2004, but because of the Laurel backlog the letter with the notification of that acceptance was not received in Atlantia until mid-April and the name did not appear in the standard references for checking Society conflicts until after this had been sent to the College of Arms for registration in June, 2005. Our deepest apologies to the submitter for the resultant failure to catch the conflict.

Renate de la Beche. Device. Per bend engrailed azure and Or, a sun and an escallop inverted counterchanged. The Laurel staff felt that there were too many engrailings in the line of division and that they were too shallow to meet their standards for identifiability. They therefore returned the device to be redrawn to meet their specifications.

Your servant,

Alisoun
